About Me

I am currently pursuing B.Tech in Computer Science and Engineering at Amrita Vishwa Vidyapeetham. I'm passionate about web development using HTML, CSS, Node.js, Express.js, and React.js.

Skills

- Python
- C Programming
- HTML, CSS, ReactJs, NodeJS
- Data Structures
- DBMS
- Full Stack FrameWorks

Education

Amrita Vishwa Vidyapeetham, Coimbatore, Tamil Nadu
B.Tech in Computer Science and Engineering *2023 – 2027*
CGPA: 5.23

Narayana Junior College, Telangana *2021 – 2023*
Grade 12 – 872 Marks

Narayana Group of Schools, Kadapa *2021*
Grade 10 – 591 Marks

Projects

Voting System using DSA (C Language)
Developed a console-based voting system to simulate real-life voting. Used arrays and hash maps for efficient data management and applied sorting algorithms to display results. Added checks to prevent duplicate votes, improving accuracy and understanding of time complexity.

Smart Parking System (Arduino + C in Tinkercad)
Created a smart parking system using sensors and Arduino to track vehicle entry/exit and manage slot availability. Programmed in C, simulated in Tinkercad. Improved understanding of embedded systems, sensor logic, and real-time problem-solving.

Traffic Light Simulation(Arduino + C in Tinkercad)
Designed and simulated a traffic light control system using Arduino and C in Tinkercad. Used LEDs to represent traffic signals and implemented timing logic to control light transitions (red, yellow, green) using delay() and digitalWrite() functions. Gained practical experience in embedded programming, circuit design, and real-time system simulation.

Certificates

- Certified in C Programming
- Certificated in MS Office

Achievements

- Served as School Coordinator and Cultural Secretary
